Any customer, residential or commercial, is eligible for a one (1) time pool adjustment per year.

The customer's bill may be considered for a STEP sewer adjustment only on the consumption charge of \$2.00 per thousand gallons. The \$28.00 base rate will not be adjusted.

The consumption must be at least two times the average monthly bill. The average consumption will be based on the months November through April. The adjustment will be made after the bill reflecting the pool usage has been billed.

The adjustment will only be made on the sewer portion of your bill, not the water portion.

The amount of adjustment will be applied to the customer's account and will not be reimbursed in cash.
