Dear Mr. Goodson:

The Division of Water Resources (division) is in receipt of the permit application dated December 7, 2021, in which your request a permit for the transfer up to transfers approximately 0.1 million of gallons per day of water from the Lower Cumberland River Basin (Stones River Watershed) to the Duck River Watershed. We have completed our review and have determined this application is complete as submitted.

As a result of this determination, we have prepared an approved Public Notice which you will find enclosed. The applicant is responsible for distributing the public notice as follows.

1. Publish the notice of the permit application once a week for four consecutive weeks in a newspaper of general circulation in each potentially affected community in the river basin of origin. To document this, please provide us with a copy of the newspaper containing the notice for each of the four weeks.
2. Provide notice of the application to a responsible official within each potentially affected community and water user within the proposed basin of origin by certified mail, return receipt requested. To document the performance of this task, please provide to us a copy of the letter sent to each responsible official with a copy of the return receipt.
3. Post a minimum of three public notices in public buildings, e.g., courthouses, libraries, city halls, in each potentially affected community in the river basin of origin.  
To document the performance of this task, please provide to us a list where these notices were posted.

Please perform these tasks beginning as close to February 1, 2022, as possible, and provide the documentation to us by March 15, 2022.

If you have questions, please contact the Knoxville Environmental Field Office at 1-888-891-TDEC; or, at this office, please contact Mr. Jim McAdoo at (615) 532-0684 or by E-mail at [Jim.McAdoo@tn.gov](mailto:Jim.McAdoo@tn.gov).

Sincerely,

  
Vojin Janjic

Manager, Water-Based Systems
